Stuttgart, Germany

I'm a designer with a background in interior architecture, now specializing in UX and digital design. My work is shaped by a deep curiosity about how people interact with their environments, whether physical or digital. I care about usability, clear structure, and visual clarity, and I enjoy turning ideas into intuitive and engaging user experiences.

WORK EXPERIENCE

Floor Plan Visuals, Charleston, Remote

Project Architect | August 2016 - Present

- Trained and mentored new members of the team, improving onboarding and team efficiency.
- Created comprehensive workflow documentation, standardizing processes and ensuring consistency across projects.
- Developed and maintained standardized project templates, reducing production time and minimizing errors.
- Conducted quality checks for accuracy and detail before delivery.

Piron Architecture, Istanbul

Interior Architect | August 2015 - August 2016

- Coordinated with contractors and suppliers to align design decisions with execution.
- Prepared detailed project documentation, supporting smooth workflow and decision-making.
- Gained experience in managing timelines and multiple stakeholders to achieve project goals.

Catherine Lovegrove Murals, London

Painter | September - December 2013

- Collaborated within a team to execute Bridget Riley's mural artwork at St. Mary's Hospital, contributing with precision and attention to detail in large-scale artistic production.

Stoa Interior Design, London

Founder | October 2012 - March 2015

- Delivered architectural drawings and technical documentation for residential and commercial projects.
- Prepared and submitted planning applications to the council, ensuring compliance and successful approvals.
